

Moving Checklist

When moving day comes, there are a million details to figure out. It can be hard to know where to start or how to prioritize what you need to do. With our checklist, you can be confident that you've got everything under control!

- Pack everything completely before moving day (boxes filled and sealed with tape)
- Use up as much of your refrigerated food as possible in the days leading up to your move
- Make arrangements for your pets and kids for moving day
- Plan easy meals for moving day and the day after
- Change your address with the USPS (can do it online to save time!)
- Remove breakables and loose items from drawers (clothes can stay)
- Unplug all electronics and appliances that you're taking with you
- Label boxes on the top and sides (with clear names for where they go: Master Bedroom, Den, etc.)
- Get medical, vet, and school records in order
- Call to set up utilities at your new address and disconnect current ones
- Take apart outdoor furniture and playhouses (or ask if your mover will handle it)
- Pack personal valuables like checkbooks, jewelry, and cash in your own vehicle (you may want to move houseplants yourself, too!)
- Cancel or forward any subscriptions you receive by mail
- Pack a "do not move" box with the essentials you'll need for the first few days in your new place (prescriptions, toiletries, clothes, etc.)
